

HDS-OWRE-300

peerAir™ | PRO

Wireless Outdoor Integration Module

For Use With PeerAir™ Pro Wireless AV Multi-Display System

The PeerAir™ Pro Outdoor Weather Resistant Enclosure provides safe placement of AV and electrical components from rain, snow, splashing water and debris. Designed for optimum flexibility, the enclosure is ideal for use with the Peerless-AV® PeerAir™ Pro Wireless AV Multi-Display System, as well as other AV devices. Its internal power management support consolidates up to three power cords into one extension cable for a clean, clutter free installation.

Additional Features

- ✓ Safeguards AV and electrical components from elements such as rain, snow, splashing water and debris
- ✓ Built-in 3-tap grounded outlet for wireless components and display power allowing for only one power cable to be routed to the power outlet
- ✓ Ventilation portals for ideal air flow
- ✓ Provides excess display power and component cable storage for a clean look
- ✓ Accommodates installation to virtually any Peerless-AV® mount or flat surface
- ✓ Designed to support PeerAir™ Pro Wireless AV Multi-Display System as well as other AV devices
- ✓ Comes with a cam lock for secure installation
- ✓ Enclosure is constructed from flame resistant ABS Plastic (UL 94HB) material
- ✓ Ships pre-assembled
- ✓ Quick and easy installation

The PeerAir™ Pro Wireless Outdoor Integration Module protects against rain, snow, splashing water and debris.

CLEAN INSTALLATION

Provides 3-tap grounded outlet for wireless components and display power allowing for only one power cable to be routed to the power outlet

AIR-FLOW

Top and bottom ventilation portals allow for natural air-flow

SECURE INSTALLATION

Secure AV and/or electrical components with provided Cam Lock

Cable management portals for a clean, clutter free installation

Includes cam lock to secure internal components

Adjustable mounting brackets easily attach the enclosure to virtually any Peerless-AV® mount or flat surface
